## More than Luggage Security Solutions

It all started up as a humble beginning when we ventured into travel retail with our startup company, offering wrapping and strapping almost twenty years ago.

Today, we take pride in being Malaysia's first innovative brand to retail and market a wide selection of qualitatively unique, trendy, vibrant and recyclable protective luggage covers.

All our luggage covers are made out of selected high-quality and long-lasting materials to last for a lifetime, depending on the handling and weather extremities.

We deliver a solution-based approach by customizing our covers for a more personal touch. Here at Luggage Central, you will have the freedom to choose and match your luggage covers according to your own likings.

Our collection embraces a pragmatic approach in quality and style at great value that fits into every pocket.

Wherever you go and whatever you do, you can count on us to have your bags covered.

## Premium Spandex Covers

A wide selection of trendy, eye-catching and reusable luggage covers in various colors and design that'll do that job of protecting your luggage without sacrificing style. Visit us at our retail outlets in KL Sentral and KLIA 2.

The image features a large, blue neoprene luggage cover in the foreground on the left side. The background is a gradient of blue, with two divers in silhouette swimming in the water. The diver in the upper center is positioned higher and further away, while the diver in the lower right is closer and more prominent. The overall scene is set against a deep blue background, suggesting an underwater environment.

## Neoprene Spandex Covers

Neoprene is a synthetic rubber that's often used to make wetsuits, hence its alternative name "scuba", which has become increasingly popular as a fashionable material to wear on the street (and on luggages too!) with features like stain resistance and general durability. The fabric is thick and resilient, so you'll never run the risk of your luggage cover accidentally tearing or stretching out.
